

Skoda

Praktik

Make a good van even better.

Now you have bought your van, it may be the most important part of your business for years to come. But it's just a shell and you must consider your options for turning it into an effective work tool.

Consider efficiency and safety when loading your van with tools and equipment. Know exactly where things are and know that they will stay in place when you are on the move.

Here at System Edström we've used over 50 years experience to design and manufacture racking packages for your Skoda, choose the one that suits your needs, adding or removing Edström accessories and components to get it right for you.

Weight app. 19 kg

Package number F40301
Weight app. 35 kg

Package number F40302
Weight app. 57 kg

Package number F40303
Weight app. 28 kg

Information

- Load heavy low, obvious you think. But you should always remember this, store your load in a clever way and you will have less back problems and the vehicle will act much better and be safer on the road.
- If you have bulky packages on the floor make sure to use proper straps to retain them! It can save your life!!
- Remember that System Edström is only a tool for good order and safety in your vehicle, at the end of the day it is up to you how effective this tool will function in your every day life.
- When you equip your vehicle with the tools and spare parts you'll need, remember to PUT the items in place. If you just throw in place you can damage tools, parts and the interior.
- Use drawer inserts and plastic bins as much as possible, it will keep your stuff in place. It also avoids unnecessary noise and damage to tools/parts.
- Benefit from a quieter life by using plastic foam in the drawers, it also prevents damage to tools and parts.
- Rubber mats in the shelves are a matter of course for us. Again, it reduces noise and your tools and parts stay in place.

Now that you have chosen to have System Edström in your vehicle you have taken the first and most important step to make your mobile workshop safe and functional. From here on it is up to you how safe and functional your working place will be.

Remember;

You as the driver has the full responsibility if you or any one else is injured because the cargo is poorly secured. It is also your responsibility to make sure that the interior is mounted in the safest way possible whatever your choice of workshop, even if they are professionals with knowhow and long experience .

Make sure NOT to exceed the maximum payload of the vehicle.

Security, Environment & Quality

The company is certified according to SS-EN ISO 9001:2008 to secure the administrative quality and to give us the possibility to keep a high accuracy on deliveries.

Our products are tested in two ways, the first and most important is two crashtests, one (ECE 1707) performed by Milbrook in England and another one performed by Valutec in France (INRS NS289).
